Education

National Institute of Technology, Rourkela

Bachelor of Technology

August 2023 – Present

Rourkela, Odisha

Relevant Coursework

- Product & Growth Analytics
- Consumer Behaviour
- Operations Management
- Probability & Statistics
- Data Analysis & Visualization
- Machine Learning

Work Experience

Pradivya Software Pvt Ltd.

Product Operations Intern

May 2026 – July 2026

Noida, Delhi NCR

- Managed and validated 40,000+ railway inspection records across multiple fault categories for operational monitoring.
- Built structured reporting pipelines to track KPIs and surface actionable insights for operational decision-making.
- Collaborated with engineering teams to streamline inspection workflows and fault classification processes.
- Supported AI model validation by reviewing inspection outputs and improving fault detection accuracy through structured data annotation and quality checks and successfully deployed AI-powered railway inspection systems and operational monitoring activities.

Projects

Vendor Mobility & Capital Compliance Management

Google Sheets, Google Forms, Google Docs

June 2026

- Designed an end-to-end vendor travel tracking system monitoring 28+ trips across 6 budget categories with automated leakage exposure flagging.
- Built executive compliance reports and milestone tracking workflows adopted for internal operational audits.

Railway Inspection Operations Analytics

May 2026

- Analyzed inspection data and fault trends to improve monitoring and maintenance planning.
- Developed automated workflows for fault classification and operational reporting.
- Identified recurring fault patterns through inspection data analysis to support predictive maintenance planning.

IPL Win Predictor

Python, Pandas, Scikit-learn

October 2025

GitHub

- Built a machine learning model to predict match outcomes using historical IPL data (2008-2024).
- Improved model performance by incorporating city-based trends.
- Deployed a user-facing web application with real-time predictions, driving engagement through personalized match outcome insights.

Achievements/Certifications

- **McKinsey Forward Program** **December 2025**
- **Quantitative Research Job Simulation – J.P. Morgan** **December 2025**

Technical Skills

- **Languages:** Python, SQL
- **Analytics:** Funnel Analysis, Retention Analysis, A/B Testing, Growth Metrics
- **Domains:** Product Growth, User Engagement, Revenue Analytics
- **Tools:** MS Excel, PostgreSQL, Google Sheets, Google Docs, Jupyter Notebook, Google Colab, Jira

Leadership & Responsibilities

FitCon

Treasurer — Event Operations & Budget Management

October 2023 – April 2025

NIT Rourkela
